## **An All Natural Pellet Binder**

Manufactured from modified corn starch, PelletBond™ provides a high quality all-natural binder and die lubricant for pellets.

No longer do you have to use noxious, hard to handle chemical binders. Now there's a better solution which has been tested and proven successfully. Industry innovators have already switched to this new and exciting natural product.

## **Cost Savings**

PelletBond™

### **Efficient Lubricant**

PelletBond™ works to help abrasive product through mill when activated by steam. More product through, less amps on mill motors.

### **All Natural**

Manufactured by an all natural and environmentally safe process, PelletBond™ has no added chemicals producing a safe binder.

### **Odor Free**

PelletBond is made in a clean food grade environment and free from any noxious or harmful odors.

### **Safe, Free Flowing, Easy Handling**

Why expose your people to harsh hard to handle binders, when there is a better option? PelletBond™

### **Low Inclusion**

Recommended 6-10lbs per ton

### **Bio Degradable**

Nature corn based binder

### **Clean Burning/Low Ash**

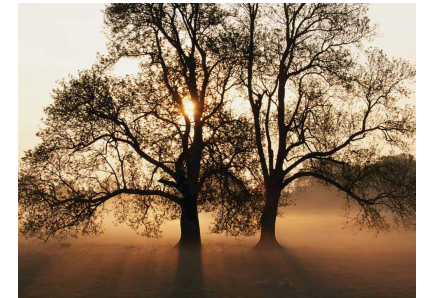

Clean high quality starch

### **Durable Pellets**

Good PDI means less dust

## **Tested Successfully**

Used by major industry producers and innovators
